

miControl® informs:

Edition October - 2024

Visit us at SPS 2024 in Nuremberg from 12 to 14 November 2024

We are delighted to be exhibiting again this year at the leading trade fair for automation, SPS 2024 in Nuremberg.

Mario Bruns, Key Account Manager at miControl, informs you in this issue of our info sheet about the exhibition at the trade fair.

We invite you to visit our **stand 339 in hall 1**. Come by and find out about the right drive technology for your application.

A particular highlight of our products is their comprehensive programmability, which enables you to decentralise your control processes. This reduces bus utilisation and in many cases you can even dispense with a separate PLC controller - which offers you considerable cost benefits.

Find out more at our exhibition stand:

- Innovative drive technology for your cost-optimised automation
- The PLC functionality of our products
- Expandable interfaces
- Extensive software functions for your individual requirements

Would you like to visit us at the SPS and get in touch with our specialists?

Why not arrange a personal appointment right away? We will be happy to send you a voucher code for free access to the trade fair, which you can use to obtain your personalised free ticket on the Internet. You can request your personalised appointment and ticket directly on our website at <https://www.micontrol.de>.

We look forward to welcoming you in person at SPS 2024 and
